

MEMORANDUM

FROM: Jack A. Barnett

DATE: May 20, 1966

On May 18, 1966, Jack Barnett and William Burton visited with Mr. Lewis Allen, Engineer for Pacific States Caste Iron Pipe Co., he indicated some dissatisfaction with the proposed determination of rights by the State Engineer's Office. He did indicate, however, that the distribution schedule as set forth by the office would appear to be workable for the forth coming irrigation season. He indicated that he would be happy to continue with the bi-monthly measurments of the water, as was done during 1965, some of the weirs are in disrepair. He will service the wairs and commence his measurments in the near future.
